Monitoring the Triad of Anaesthesia

Hypnosis, Analgesia & Paralysis

6 CPD
points

3rd June
2024

Expert Faculty:
Dr Mark Barley
Prof Anil Hormis
Dr Shaun McMahon
Dr Pavan Bangalore
Dr Grant Rodney
Dr James Cameron

FULL DAY SEMINAR

Talks | Interactive Discussion | Workshops | Practical Demonstrations | Case Presentations

This regional meeting offers a unique chance to connect with colleagues and explore the importance of **making monitoring easy** and **personalised anaesthesia** that will change your practice and enhance patient care. Implementing a tailored approach can greatly improve outcomes and ensure each patient receives individual attention. This innovative 'holistic' approach of intra-operative monitoring of hypnosis, analgesia and paralysis reflects a commitment to excellence in healthcare delivery.

Hypnosis

Depth of anaesthesia
monitoring and
processed EEG

Analgesia

Nociceptive
monitoring

Paralysis

Neuromuscular
blockade monitoring
